PROFESSIONAL SUMMARY

Computer Science student specializing in UI/UX Design and Frontend Development with experience designing responsive web and mobile applications from user research to high-fidelity prototypes. Skilled in user-centered design, wireframing, design systems, usability testing, and developer handoff using Figma and Adobe Illustrator.

WORK EXPERIENCE

Software Developer Intern

Feb 2026 – May 2026

ORTADEL Technologies Corporation

Ortigas Center, Pasig, Metro Manila

- Designed and maintained 20+ high-fidelity UI screens and interactive prototypes in Figma for HRIS Leave Management and Payroll modules, improving workflow efficiency across role-based administrative processes.
- Collaborated with developers and stakeholders to translate business requirements into user flows, wireframes, and developer-ready design specifications.
- Established reusable UI components and design standards across two HRIS modules, improving visual consistency and streamlining future enhancements.
- Translated approved Figma designs into responsive React and Tailwind CSS interfaces, ensuring design consistency and production-ready implementation.

WordPress Website Developer

Aug 2025 – May 2026

Institute of Arts and Design (IAD)

J.P. Rizal Ext., West Rembo, Taguig City

- Designed responsive website layouts, landing pages, and UI mockups in Figma, translating stakeholder requirements into intuitive user experiences.
- Developed and refined a WordPress website through iterative feedback, improving usability, accessibility, and cross-device responsiveness.

PROJECTS

UI/UX Designer and Quality Assurance

Aug 2025 – May 2026

HeronWellnest: A Gamified Student Mental Well-Being Web-Application

With Monitoring Utilizing Random Forest (Thesis)

- Conducted user research, stakeholder interviews, and user journey mapping to define application workflows and information architecture.
- Designed low- and high-fidelity Figma prototypes for student and administrative interfaces, collaborating with developers to ensure usability and design consistency.
- Authored QA documentation including test plans, functional, regression, and smoke test scripts, and reproducible bug reports, improving test coverage and reducing testing gaps.

UI/UX Designer & Frontend Developer

May 2024 – May 2025

JotterPal: Task and Note Management Application (Academic Project)

- Conducted user research and designed user personas, journey maps, user flows, wireframes, and high-fidelity prototypes for a task and note management application.
- Performed competitor analysis and benchmark research to identify usability improvements and establish design best practices.
- Built a cohesive design system including typography, color palette, components, and icons, ensuring consistency across 20+ application screens.

- Developed interactive Figma prototypes and translated approved designs into a Kotlin-based Android application, improving implementation accuracy and reducing design revisions.

UI/UX Designer & Frontend Developer

Aug 2023 – Dec 2023

Bookify: Library Management System (Academic Project)

- Designed high-fidelity prototypes in Figma and Adobe Illustrator before implementing the application in C#, ensuring consistency between design and development.

EDUCATION

Bachelor of Science in Computer Science

Aug 2022 – Present

(Application Development Elective Track)

University of Makati

J.P. Rizal Ext., West Rembo, Taguig City

SKILLS

- **UI/UX:** User Research, Personas, Journey Maps, User Flows, Information Architecture, Wireframing, Prototyping, Responsive Design, Design Systems, Usability Testing
- **Tools:** Figma, Adobe Illustrator, Adobe XD, Canva, WordPress
- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS, Next.js, Kotlin
- **Collaboration:** Jira, Git/GitHub, ClickUp
